

5 WAYS TO SAFEGUARD YOUR TOUR OF THE HOLY LAND

As a Christian, there is no better way to visit the Holy Land of Israel than with your congregation on a church tour.

There are various things you may take to protect your trip. We'll look at five of them in this article.

1 Check Official Government Websites Beforehand

For formal purposes, most countries have their own website, and Israel is no exception.

2 Make Sure to Pack All the Necessities

Our recommendation includes the following:

- Sunscreen
- Sunglasses and a good hat
- Casual and comfortable clothes
- A power bank portable charger
- A light backpack
- Bible

3 During Your Stay, Always Have a Purpose in Mind. Act Upon It.

Ideally, each hour of your tour should have specific objective. Show that you are self-assured and know exactly what you're doing and where you're going.

4 Always Ask Your Tour Manager, Or Hotel Manager About Where to Visit

They are aware of some fantastic spots because they have years of expertise in a market that offers a lot to Christian tourists.

5 English is a Common Language in Israel So If Anything Happens, Ask for Help

Believe it or not, up to 85% of Israel's population speaks English.
